

Developing Cow- based
Sustainable Village communities

ISKCON - Spiritual Organization

A wing of ISKCON focused on activities oriented towards developing communities based on the principle of “Simple living and High thinking”

- IDVM- ISKCON Daiva Varnashrama Ministry
- Om Sri Surabhi camapaign

Vedic Paradigm for Economic Sustainance

- Krishi
- go- raksha
- vanijyam

And all three have direct and indirect connection with cows.

Practicle activities taken up by ISKCON to promote utility of cow- based products.

- Seminars and workshops- educating city dwellers
- Village programs- Govinda Go Grama yatra/ Adopting village program
- Developing Communities
- Adopt a cow - Govinda - Gopala program
- Training in preparing cow products and installing production units.

Seminars and workshops, Adopting villages, Adopting cow (Govinda- Gopala program), Developing communities (Gita- nagari baru)

Gopuja, Yagnas, Cow care awareness

Bull power

schools, college and gurukulas

My humble suggestions:

- Please research into Vedic sciences, its not mythology.
- Also endeavor into metaphysical analysis of Cow care.
- Try taking inputs of very experienced farmers even though they may be illitrates, they have a lot of intresting things to offer for research.
- Education department exclusively to study Cow could be developed

“om sri surabhyaya namah”

Thank you!
